

Andrei Josef C. Nicolas

UI/UX Engineer

+63-977-738-9118 | andreinicas0816@gmail.com | linkedin.com/in/andreinicas | josefnicolas.vercel.app

Professional Summary

UI/UX Engineer with experience designing production mobile and web applications, conducting usability research, and translating product designs into responsive user interfaces. Combines product design, front-end implementation, and AI-assisted prototyping.

Work Experience

UI/UX Engineer | You-Source

Jan 2024 - Present

- Designed interfaces for two production mobile applications in digital health and food and beverage, contributing to MVP development and core user flows.
- Built an internal AI tooling extension for rapid prototyping and design-fidelity validation, reducing manual handoff work between design and engineering.
- Built a fully coded, interactive tennis tournament admin prototype with an end-to-end AI-assisted workflow, and developed responsive Flutter UI components from Figma designs.
- Led moderated think-aloud usability testing for ordering and fund-management flows, identified usability issues, and delivered UX recommendations to improve task completion.
- Led the design of a web-based ERP application for an Australia-based welding company, aligning interface decisions with business and operational requirements.
- Collaborated with product managers, developers, and QA in Agile delivery, and communicated UX decisions to clients to align product usability with stakeholder priorities.

Skills

Design: UI Design, Prototyping, UX Research, Usability Testing, Wireframing, Journey Mapping, Design Systems, Interaction Design

Development: HTML/CSS, Flutter, NextJS, React Native, Tailwind CSS, Git, Webflow, AI-Assisted Development

Tools: Figma, NotebookLM, ChatGPT/Codex, VS Code, Claude, Notion, Adobe Firefly

Education

FEU Institute of Technology

2019 - 2024

Bachelor of Science in Computer Science, specialization in Software Engineering
